

会社案内

PYLES JAPAN CO., LTD.
COMPANY PROFILE

Pyles

パイルスジャパン株式会社

Mission & Vision

Enhancing Productivity with
Factory Automation

Creating Employee
Work-Life Balance

Environmental
Sustainability

We are committed to leveraging the latest engineering to enable the co-existence of these three major themes.

Management Policy

Our company will continue to operate steadily and sincerely, step by step, with the following goals in mind.

- *Moving beyond mere profit-margin trading, we are dedicated to value-creating and consultative sales.*
- *Always focused on product development, quality improvement, and cost reduction.*
- *As a technological team, to introduce cutting-edge technology related to our product offerings to customers.*
- *Prioritizing after-sales support, we deliver sales alongside prompt and efficient technical service.*

Business Activities 1

Dispensing System

Dispensing System Manufacturing and Sales of Fluid Dispensing Device.

(Pumping, Metering, Mixing, and Dispensing systems) and provision of technical services.

For half a century, we have been pioneers in the industry, consistently developing liquid transfer, metering, and mixing-dispensing systems that anticipate market needs. Through these efforts, we have contributed to industrial streamlining, improved quality, and better working environments, earning high recognition in the field. Our company will continue to operate steadily and sincerely, step by step, with the following goals in mind.

Direct Glazing

Bonding of Insulation for LNG Gas

Sealing of Insulated Glass Units
Sealing of Skyscrapers

- Fluid Pump
- Metering, Mixing, and Dispensing of Two-Component Fluids
- Hot-Melt Dispensing System
- Constant-Rate, Fixed-Volume Fluid Dispensing
- Various Air-Driven Guns and Valves

Business Activities 2

Air Conditioner Tools & Measurement Devices.

In recent years, environmental issues such as global warming and the destruction of the ozone layer have been widely recognized. Through the manufacture and sale of cutting-edge refrigeration units, air-conditioning tools, measuring instruments, and CFC recovery and recycling systems, we not only contribute to greater work efficiency but also help create a richer and more sustainable environment.

Business Activities 3

Production and Sales of Automation and Labor-Saving Systems

We focus on fluid-related operations and manufacture and sell labor-saving and automation equipment for production sites, working to reduce costs, improve quality, and enhance working environments.

Direct Glazing

Automatic CFC Refrigerant Charging System
